### WEB DEVELOPER

*StarTalers | July 2021 - December 2021*

Empowering women (and men) to invest with Capitana, your Best Financial Friend:

- Fully featured ReactJS/Typescript SPA
- REST APIs architecture in Golang with Cockroach/NSQ
- Static website using NextJS/TailwindCSS
- CI/CD with Docker trough GitlabCI
- Legal IT documents draft and review
- Figma design mockups

### MOBILE/WEB DEVELOPER

*NEOFACTO | April 2020 - June 2021*

**cityapp** - Luxembourg city in an app:

- Native Android/iOS app using React Native, Redux
- Custom map integration with ARCGis
- Push Notifications through Firebase Cloud Messaging

**agentM** - Print road fines on-the-go directly from your smartphone:

- Native Android app in MVVM architecture using Gradle/Hilt/Room/Retrofit
- Continuous Delivery over GitlabCI and Firebase App Distribution

### WEB DEVELOPER

*ING | April 2018 - April 2020*

Internal applications revamp to enhance UI/UX and reduce technical debt:

- Front-end built in vanilla JS, with a homemade Redux store
- Reusable extensive components in Polymer/Lit-HTML, unit tests with KarmaJS
- REST APIs with Java 13/Maven/SpringBoot/Lombok
- End-to-end tests with Cypress, unit tests with JUnit/Mockito
